

REGULATORY ANNOUNCEMENT

ISLAMIC/HALAL CERTIFICATION

The management team at Forever has reviewed our Islamic/Halal certification program and made the decision to transition our Halal certification fully under the supervision of the Islamic Food and Nutrition Council of America (IFANCA). We have found that IFANCA is an organization that is more globally accepted and is recognized in many countries around the world.

Effective immediately, our products will no longer be endorsed by the Islamic Society of California (ISoC). Any use of the ISoC certificate by the company will cease and the IFANCA certification and symbol should be used on our product labels, in literature and on our website.

IFANCA certified products currently include over:

- 61 food/dietary supplement products
- 41 cosmetics – skin care/personal care products

There are some products listed on the ISoC Endorsement Certificate that may not be covered under the IFANCA Halal certification program. Please visit foreverliving.com to view the certificates or ifanca.org for a complete list of Forever's Halal certified products.

Your cooperation and understanding is greatly appreciated.
